| Mortality rate assumption | 1971 group annuity |
| Decrement assumption other than mortality | Experience tables |
| Salary progression assumption | 5.5% |
| Status of Social Security in assumption | None |

The attained age at time of disability or retirement, gender, annual salary or pension, and completed years of service of each individual participant as of the date of the Valuation Balance Sheet are used in calculating the liabilities of the fund. The actuarial assumptions used in determining the above amounts are based on all of the Article 3 funds in the State of Illinois in aggregate, not on each fund individually. The fund specific information used in the production of this document was provided to the Illinois Department of Insurance by your pension fund board of trustees through the fund's annual statement filing.
