

ALSIP STORM DRAIN STENCILING

Volunteers Needed

Storm drain stenciling is a great activity for all types of organizations from neighborhood associations to scout groups to service clubs. By participating, the members of your group will become more aware of the close link between our streets and waterways. And you will leave behind a reminder for others. For more information about storm drain stenciling in your community contact Village of Alsip Public Works Department, see below.

Any water that runs down the storm drains flows directly into our waterways. It does not pass through the sanitary sewer system, and it does not receive any kind of treatment.

People who would never dream of polluting a lake or stream might pour antifreeze, fertilizer, paint or used motor oil, or toss pet waste, cigarette butts or litter down storm drains. Storm drain stenciling is a simple way to prevent this kind of pollution in your neighborhood.
