12/8/2021

Village of Alsip Landlords,

The Village will be meeting with you soon to discuss an ordinance that was amended Monday 12/6/2021 which mandates all multi-family buildings that have 3 or more units, must construct a corral around the garbage dumpsters that are 6' tall. All corral locations must be approved by the Building Department, following an on-site visit with the responsible landlords.

The Village is allowing (1) one year for compliance (12/6/2022).

Please visit the Building Department at the Village Hall for instructions, a fence permit application and to schedule an appointment for an on-site meeting to locate the corral(s).

The corrals will improve the safety and appearance of the multi-family buildings & community.
