From the office of Mayor John D Ryan

Alsip Residents & Businesses,

Please be safe over the next couple of days when dealing with the presumed heat wave this area is anticipating, as I always stress to look out for your neighbors and especially the elderly.

Should your air conditioning not be working properly, you are certainly welcome to sit in the Village boardroom between the hours of 8am – 4pm on both Wednesday & Thursday, as this space is a temporary convenient cooling center.

ComEd is closely monitoring the weather throughout this week. Temperatures are expected to be in the mid to upper 90's with heat indexes over 100 degrees on Wednesday and Thursday.

ComEd's staffing levels have been adjusted and our command centers will be opening on Wednesday morning. We will continue to monitor the weather and temperatures across our service territory and will provide updates as they become available. In the interim, should you need anything please do not hesitate to contact me.

As always, please advise your residents to call 1-800-EDISON1, go to ComEd.com, or use the ComEd Mobile App to report their outages.
